SNIPER INSTRUCTOR COURSE

November 1 - 5, 2021

In association with Advanced Combat Evolutions

Course Description: This 40 hour course focuses on instructor and sniper program development. Students will get extensive experience honing their instruction skills throughout the course while building shooting drills, courses of fire, and training philosophies. This is a learn-by-doing course that demands a high level of student participation. Prior sniper training and experience is required to attend this course. Students will learn how to design and implement a training matrix, create and teach training blocks, document training, and design courses of fire.
